

**SPIROTECH**

***SPIROTECH***

**HEAT EXCHANGERS PVT. LTD.**

**AN ISO 9001 & UL CERTIFIED COMPANY**

**SPIROTECH** is a leading manufacturer of Fin and Tube type Condensing and Cooling coils for all HVAC applications. Established in 1994, the company has, over the years, meticulously developed specialized core competencies that have enabled it to maintain its technological edge and market leadership.

**Spirotech's** biggest strength lies in its highly integrated state-of-the-art manufacturing, Gold rated Green building facility located close to India's capital, New Delhi. With a capacity for producing about 4 Million coils per annum, the plant also offers the advantage of scalability, handling small lots and large consignments. The versatility of the Company enables it to offer a wide range of fin patterns, surfaces, fin spacing, thickness and varieties of Copper and Aluminum tubes. The plant is backed by a

sophisticated in-house laboratory that ensures contamination & moisture-free coils of truly world-class quality.

The company is ISO 9001 certified for Quality Systems and UL certified for Safety, and adheres to stringent quality norms with a view to delivering global standards of product excellence and performance. The manufacturing process is specially designed for self-inspection to ensure defect-free products and the finished coils undergo 100% **Helium Leak Testing** and De-hydration prior to dispatch.

**Spirotech** has a formidable reputation for innovations and pioneering technological advancements in the industry. The company was the first to introduce 7 mm tube diameter coils and Hydrophilic fin material in India almost 20 years ago. Continuing the dedication to innovation, in order to meet the current global demands for vastly improved energy efficiency and natural refrigerants compatibility to help in environment protection, the company has introduced very small diameter 5 mm Copper tube – Aluminium fin coils – for the first time in India. These are ideally suited for natural refrigerants and help in reduction of quality of refrigerant in the system, deliver higher efficiency / cooling and reduced costs besides helping in making the equipment more compact.

With perseverance and research for three years, Spirotech introduced, Aluminium tube – Aluminium fin Heat Exchangers again for the first time in India in 2013. A radical innovation that lives up to the promise of higher reliability, reduce costs and prevention of Formicary and Galvanic corrosion.

**Spirotech's** exports account for 85% of its Sales which speaks for its uncompromising quality, reliability and commitment.

**HEAT EXCHANGERS PVT. LTD.**

**AN ISO 9001 & UL CERTIFIED COMPANY**

## **Heat Exchanger Coils for Air-Conditioning & Refrigeration Appliances**

- ❖ Most modern manufacturing facility (GOLD rated GREEN building)
- ❖ International quality standards
- ❖ Coils compatible for all new refrigerants including Natural Refrigerants, Propane (R 290) & CO<sub>2</sub> (R 744)
- ❖ UL certified for safety
- ❖ Helium Leak tested Coils
- ❖ Wide Range of Fin Patterns using 5 mm, 7 mm, 9.52 mm and 12.7 mm Copper tubes with & without Super slit Fins
- ❖ Also available with Aluminium Round tubes
- ❖ In house manufactured End Plates & Headers
- ❖ 80% Coils exported to Europe & North America
- ❖ Excellent development support
- ❖ Quick response every time
